DNR ESD Field Offices

These 69 staff professionals are responsible for enforcing all pollution regulations in regards to:

Solid Waste

Water Supplies

Wastewater

Air Quality (the equivalent of 9 full-time staff statewide)

Animal Feeding Operations

Floodplains

Underground Storage Tanks

Emergency Response

DNR ESD Field Offices

- ~1,738 Permitted Wastewater Facilities (w/o storm water)
- ~1,992 Public Water Supplies
- ~6,800 Active Air Quality Facilities
- ~318 Permitted Solid Waste Facilities
- ~3,121 Active Underground Storage Sites (w/o LUST sites)
- ~4,638 Animal Feeding Operations (open and confinement)

Add to the above, the investigation ~2,270 complaints each year, providing technical assistance 1,000s of times, and responding to 851 of Hazardous Substance Incidents

DNR ESD Field Offices

To successfully enforce a statewide trash burning ban of any size or scope, the DNR will require the assistance, expertise and cooperation of local law enforcement, sheriff's departments, fire departments, county and city health departments, and county and city attorneys.
